

Mi IH Rice Cooker

Xiaomi Mi induction heating pressure rice cooker has 2000 modes to enhance the taste of your food. The Xiaomi rice cooker boasts a 3L capacity. Prepare fluffy and delicious rice anytime anywhere with Xiaomi Mi IH Pressure Rice Cooker. The appliance is equipped with an advanced electromagnetic heating technology. Plus, it also boasts the modern micro-pressure heating technology that lets you heat rice uniformly.

Offers 3000+ different heating methods

Allows users to change the softness of their rice via the MiJia app that offers 3000+ different heating methods much more than the traditional rice cooker.

(IH) heating technology

It also has the most advanced electromagnetic heating technology. The base layer of cast iron combined with the intelligent heat control gives an unmatched thermal stability and permeability, and can be adjusted according to different preferences and different rice types.

PFA powder coating at the bottom

PFA powder coating ensures the cooked rice will not stick to the pot so that after dinner one do not need to soak the empty container and thus it is very easy to clean after the sumptuous meal.

- Works well within Mijia app and can be programmed and controlled out of home
- Support variety of rice cooking and non-rice cooking menu
- Unique design, nice appearance
